Summary

I am an ambitious Full-Stack Web Developer trained in the latest technologies. Eager to work on big projects with a quality-driven team.

My background is a mix of food service, warehouse, and hospitality experience. I currently do hospitality task force consulting which has allowed me to travel the country and work at various hotels. This opportunity brought me to the Bay Area where my eyes were opened to the world of computer technology. I am currently based in Charlotte, North Carolina but I am open to relocation, remote work, or hybrid work.
